Welcome to TRAALITE (pronounced tray-light). With over 30 years experience, Agustin “Augie” Haro and his professional team of lighting manufacturers design and engineer high performance and specification grade outdoor low voltage lighting and LEDs. Working with architects, electrical contractors, landscape architects, landscape designers and lighting specifiers, we are meeting the growing demand for energy efficient lighting with our reliable lighting solutions for commercial and residential projects. A considerable amount of our work comes from assisting lighting professionals by retrofitting existing light systems with durable outdoor LEDs.

TRAALITE designs and manufacturers the finest quality outdoor lighting fixtures for every application. From our Brass and Copper Line manufactured in our international factory to our custom fabrications made in our fabrication shop in City of Industry, CA.; All of our products are manufactured with the finest quality materials and backed with an industry best warranty. Our Brass and Copper fixtures come with a Lifetime Warranty. We also provide a 10 year warranty on all our Aluminum fixtures and transformers. Take a look at our tough yet beautiful outdoor path lights, well lights, spot lights and wash lights. Our high quality lighting fixtures are designed to win over your customers. Be sure to ask us about our custom fabrication abilities.

Lamp: Specify (not included)  
18" W x 22" H  
*Custom Sizes Available*

**T-7060** Hanging Lantern  
Shown in Aged Brass (AB)  
Glass: Clear Seedy (CS)  
Electric: 12V or 120V  
Socket: (1) Medium Base  
Lamp: Specify (not included)  
8 1/2" W x 17" H  
*Custom Sizes Available*

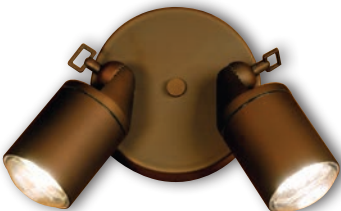

**T-7080** Hanging Lantern  
Shown in Verde (V)  
Electric: 12V or 120V  
Socket: (1) Medium Base  
Lamp: Specify (not included)  
T-7080A: 10" Dia. x 9" H  
T-7080B: 12 1/2" Dia. x 10" H

**T-511** Single MR-16 Trellis Light  
Shown in Black (B)  
Angle Cut Shroud Optional  
Lamp: 50W Max  
MR-16 (not included)  
5" Dia. (Canopy) x 6 3/4" Ext.

**T-512** Double MR-16 Trellis Light  
Shown in Matte Bronze (MB)  
Angle Cut Shroud Optional  
Lamp: 50W Max  
MR-16 (not included)  
5" Dia. (Canopy) x 6 3/4" Ext.

**T-811** Single MR-16 Trellis Light  
Shown in Matte Bronze (MB)  
Lamp: 50W Max  
MR-16 (not included)  
3 7/16" Dia. x 3 3/4" x 3" Ext.

**T-810** Up/Down MR-16  
Trellis Light  
Shown in Matte Bronze (MB)  
Lamp: 50W Max  
MR-16 (not included)  
2 1/2" Dia. x 7" x 4 1/4" Ext.

**T-218** MR-16 Angle Cut  
Trellis Light  
Shown in Black (B)  
Lamp: 50W Max  
MR-16 (not included)  
2 1/8" Dia. x 8" Ext.

**T-219** MR-16 Flat Cut  
Shroud Trellis Light  
Shown in Matte Bronze (MB)  
Lamp: 50W Max  
MR-16 (not included)  
2 1/4" Dia. x 8" Ext.

**T-216** MR-16 U-Bracket Full  
Shroud Trellis Light  
Shown in Powder  
Coat White (PCW)  
Lamp: 50W Max  
MR-16 (not included)  
2 1/8" Dia. x 8 3/4" Ext.

**T-217** Angle Cut Down Tree Light  
MR-16 4-Bracket with yoke  
Shown in Matte Bronze (MB)  
Lamp: 50W Max MR-16  
2 1/4" x 8 3/4" Ext.

**T-1314** Brass Underwater  
MR-16 Light  
3 3/4" Dia. x 5 1/2" H

**T-1336** Brass Underwater  
PAR-36 Light  
6" Dia. x 5 1/2" H

Specialty Items

**T-TKI-LG** Raw Copper (RC) TKI Torch/Combo  
Electric: 12V  
Lamp: 18W Single Contact  
Bayonet (included)  
LED: T-BA15-1 1/2 W (Warm White)  
9 1/2" H x 7" Dia. (Torch Head)  
6" OAH  
Custom Heights Available

**T-TKI-SM** Raw Copper (RC) TKI Torch/Combo  
Electric: 12V  
Lamp: 18W Single Contact  
Bayonet (included)  
LED: T-BA15-1 1/2 W  
(Warm White)  
6" H x 4 1/2" Dia. (Torch Head)  
24" OAH  
Custom Heights Available

**T-18LT-BBQ** Shown in Black (B)  
Electrical: 12V  
Mounting: Counter Top  
Lamp: 1, 2 or 3 Watt LED "Plugz"  
On/Off Push-Button  
Switch included  
19" H

**T-CHIMNEY-CAP**  
Brass or Copper Chimney Cap  
Shown in Matte Bronze (MB)  
Triangle Lattice with Crossbar  
26" x 26" x 36"  
Custom Sizes Available  
Bottom Skirts Optional

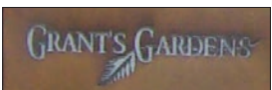

Chimney Window/Lattice Options

**T-ART**  
T-SOHO-24"  
T-SOHO-48"  
Finish: Aged Brass (AB)  
Acrylic: Natural Horn  
Electrical: 120V or 277V  
(specify)  
Lamp: T5H0

**T-MB1**  
Custom Mail Box  
Address Light

**T-LASER**  
Custom Laser Cut. • Consult factory for details.

**T-DECO**  
Garden art.

T-2054

Flush Mount 4 Number Address Light  
Shown in Matte Bronze (MB)  
Glass: Honey Swirl (HS)  
Construction: Brass or Copper • Electrical: 12V  
Socket: Single Contact Bayonet • Lamp: 13W SCB Max  
**Model#**  
T-2052: Address Light - 7" W x 5 1/2" H x 2 1/4" EXT

Frosted glass dome  
also included.

**T-STEMLED**  
Show in Aged Brass (AB)  
Built-in 3.6 Watt LED  
1/2" NPT. Mounting  
Electrical: 12 Volt  
Socket: Wire Leads for PAR 36  
21" H

Built-in 3.6W LED

Most TRAAALITE Fixtures  
are LED Compatible.

Why Use  
**LED**  
(Light Emitting Diode)  
Technology?

Using LED luminaires not only saves money, it also contributes to saving the environment. There are no filament or glass components. This reduces risk of failure and also contributes to safer conditions by producing low heat and eliminating glass related industrial lights contain Mercury Gas. LEDs do not contain mercury gas — eliminating hazard and limiting disposal costs.

In normal operating conditions, LEDs are rated for up to 50,000 hours. That's nearly 6 years of continuous use or around 11 years at 50% operation. Compared to the 5,000 hour rated incandescent bulbs, the difference

is more than measurable. LEDs save money with their long life, and also save money with low heat output. Our reliable LEDs dramatically reduce electricity usage.

LEDs don't just burn out like other lamps. Diodes gradually produce lower output over many years. When one fails, you do not have to change the entire fixture.

When lighting streets, outdoor areas, parking structures, factories, workplaces or general interior spaces — whether for security or illumination — consider the money and environmental savings of LED technology.

Call or e-mail TRAAALITE for more  
information about LED Retrofitting.  
626.336.8722 • [csr@traalite.com](mailto:csr@traalite.com)

Due to the industry demand for energy efficient lighting, many systems are being converted with LED modules. Typically, retrofitting to LEDs is cheaper than replacing an entire system of fixtures. LEDs are safer for the environment and are rated longer than other luminaires. They also excel in hostile environments that other lights may not.

Is changing a bulb in your lighting application an expensive and time consuming process? LEDs are rated up to 50,000 hours. Less replacements equal less money spent, not only on bulbs, but also on labor.

Applications That Will Benefit From  
**LED Retrofitting:**

- Factories
- Warehouses
- Parking Garages
- Parking Lots
- Hospitals
- Schools
- Senior Centers
- Municipalities
- Residential Developments
- Hotels
- Resorts
- Roadways
- Prisons
- Airports
- Terminals
- Common Areas
- Club Houses
- Athletic Facilities
- Stadiums

Turn all your fixtures into long lasting, energy efficient LED technology.
